EDUCATION

State University of New York - Binghamton

Aug 2024 - May 2026

Master of Science in Computer Science

Relevant Coursework - Data Structures, Systems programming, Distributed Systems, AI/ML, Statistical Analysis

Dwarkadas J. Sanghvi College of Engineering, Mumbai, India

Dec 2020 - May 2024

Bachelor of Science in Information Technology with honors in DevOps

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Python, C++, Java, SQL, HTML, CSS, ReactJs, Redux, SpringBoot

Development & DevOps: AWS, Git, GitHub, Docker, Jenkins, Kubernetes, Jira, Vs Code, Eclipse, Windows/Linux

Databases: Oracle SQL Developer, MySQL, MongoDB, SQLite, Firebase

AI/ML & Data: PyTorch, TensorFlow, HuggingFace, Pandas, Scikit-learn, SpaCy, SciPy, Hadoop, Spark

PROFESSIONAL EXPERIENCE

[Research Assistant](#) | D.J Sanghvi College of Engineering | Mumbai, India

May 2023 - Nov 2023

- Engineered a novel data processing methodology using **Python, SciPy and SpaCy**, enabling 10x faster data analysis compared to the previous manual methods, drastically shortening research cycles
- Enhanced **ML** model accuracy to **85.7%** by optimizing feature engineering and implementing ensemble learning techniques
- Collaborated in an **Agile environment** to develop and deploy scalable solutions, collaborating with **cross-functional teams**

[Software Development Intern](#) | Suvidha Foundation | Mumbai, India

May 2023 - Jul 2023

- Built and maintained customer-facing web applications using **React, JavaScript, and CSS** and optimized UI/UX, improving site performance by **30%**
- Designed and integrated **5+ RESTful APIs with Node.js**, improving client-server communication efficiency by **15%** and used **Docker** to reduce environment-related issues by **60%**
- Optimized **SQL** queries and database structures to improve query performance by **40%** and participated in code reviews

TECHNICAL PROJECTS

SpendWise

May 2025 - May 2025

- Developed SpendWise, a cross-platform expense tracker app with **React Native, Typescript** empowering users to manage and track expenses efficiently on both **Android** and **iOS**
- Integrated **Firebase Realtime Database**, enabling **real-time data synchronization** and secure storage, enhancing user trust and accessibility across devices
- Designed a seamless UI/UX with **Firebase authentication**, driving a 30% increase in user engagement and retention

KeyFunds

Jan 2024 - Mar 2024

- Architected and implemented a modular banking platform using **Spring Boot, Spring Cloud, and MySQL per service**, enabling **service-specific scaling and low coupling**
- Deployed an **API Gateway**, Service Registry, and centralized routing system to manage dynamic microservice orchestration
- Integrated **Keycloak** for robust authentication/authorization, enabled CI/CD readiness, enhanced system reliability by 40%

Code Diggers

Jun 2023 - Jul 2023

- Pioneered a collaborative platform for developers to connect with projects and contribute to open-source initiatives
- Engineered API integrations with Axios for data retrieval, using **MongoDB** as the database, and implemented **Redux** for efficient state management, reducing load times by 40%.
- Implemented **bcrypt.js** for secure **password hashing** and built interactive UIs with **React.js**, enhancing performance and Google Lighthouse scores

PUBLICATIONS

- S. Salgaonkar, N. Gupta, C. Kothari, A. Joshi, "Hypothesis Problem Solving Using Natural Language Processing", 4th IEEE International Conference, 2023 International Conference on Computing, Communication, and Intelligent Systems (ICCCIS), ISBN: 979-8-3503-0611-8

CERTIFICATIONS

- J.P Morgan Chase & Co. | Mumbai, India** Jan 2022- Sep 2022
Participated in an intensive, **academic merit-based**, hands-on **Python** workshop, gaining practical experience
